Guest lecture on International Taxation

Date : 5 December 2024

No of Students: 30

On December 5, 2024, the Department of M.com organized a seminar on International Taxation, led by the esteemed expert Rabindranath Kaushik. The event, spearheaded by Head of Department Percy Bose, provided an invaluable platform for participants to delve into the complexities of global tax landscapes.

The seminar offered a comprehensive overview of international tax laws, treaties, and regulations, highlighting their impact on cross-border transactions and businesses. Mr. Kaushik's insightful discussions shed light on the evolving international tax environment, including recent developments and future trends. Participants gained practical knowledge on topics such as transfer pricing, tax avoidance strategies, and the implications of digitalization on taxation.

The Interactive session fostered a lively exchange of ideas, allowing participants to clarify doubts and gain deeper insights. The seminar concluded with a fruitful Q&A session, where Mr. Kaushik addressed a range of queries from the audience. The event was a resounding success, leaving participants equipped with a better understanding of international taxation and its relevance in today's globalized economy.
