

WORKSHOPS, CONFERENCES AND SEMINARS

"You can learn new things at any time in your life if you're willing to be a beginner. If you actually learn to like being a beginner, the whole world opens up to you."

- Barbara Sher

That's what workshops, conferences and seminars at the P.G. Centre are about: to provide the springboard into the world beyond the classroom, offer thresholds to cross into expanses beyond the syllabi, because knowledge like an infinity pool is endless. And though we might not change the direction of the wind, we can fine-tune our sails and radars, and harness our goals.
