Research, Innovation & Industry Connect

Empowering Excellence in Education

21st April to 27th April 2025

**A Seven-day National Level Faculty
Development Programme**

**ORGANISED BY
Internal Quality Assurance Cell (IQAC)**

Jyoti Nivas College Autonomous

Jyoti Nivas College Autonomous is a premier institute for women founded by the Sisters of St Joseph of Tarbes in 1966. The college is committed to empowering women by providing a balanced comprehensive education in liberal arts, science, and commerce and management. The college is recognised under Section 2(f) and 12(b) of the UGC Act 1956 and conferred the status of 'College of Excellence' by the UGC. It is reaccredited by NAAC with 'A+' grade in 2021 in the 4th cycle and affiliated to the Bengaluru City University (BCU). The motto of the college is "Let Your Light Shine".

Internal Quality Assurance Cell (IQAC)

The Internal Quality Assurance Cell of the college ensures the maintenance of high academic standards and the validation of excellence in the institution from government bodies. The lead to establish quality benchmarks and its application in the academic and administrative functioning of the college is taken by the IQAC. The IQAC also periodically proposes the introduction of new programmes that are current, skill-based and innovative. The professional development of faculty through Faculty Development Programmes is undertaken by the IQAC, to enhance the use of evolving technology and facilitate student-centric participative learning. It acts as a nodal agency of the institution for coordinating quality-related activities, including adoption and dissemination of best practices.

Research, Innovation & Industry Connect: Empowering Excellence in Education

CONCEPT NOTE

The objective of the FDP is to explore and strengthen synergies between academic research, innovative practices and industry linkages to enhance excellence in education. In the rapidly evolving global landscape, educators themselves must be equipped with emerging tools, technology, pedagogy and insights to make learning transformative. The emphasis is upon strengthening faculty capabilities in mentoring students for innovation, industry readiness and employability. It is essential that educational institutions become dynamic ecosystems to nurture creativity, entrepreneurship, lifelong learning and excellence.

By bringing together research, innovation and industry linkages, educational institutions can become a catalyst for critical thinking, problem solving and establish sustainable models for industry-academia engagement. It will facilitate educational institutions to become future ready and create an environment for moulding leaders, thinkers and change makers.
